9.2 Practice Quadratic Functions Answers

CHAPTER 9 Quadratic and Exponential Functions

Then
In Chapter 8, you solved quadratic equations by factoring and by using the Square Root Property.

Now
In Chapter 9, you will:

- Solve quadratic equations by graphing, completing the square, and using the Quadratic Formula.
- Graph exponential functions.
- Identify geometric sequences.

KY Program of Studies

HS-AT-S-PRF13 Students will graph linear, absolute value, quadratic and exponential functions and identify their key characteristics.

HS-AT-S-E1B Students will solve quadratic equations in one variable.

Why?
FINANCE The value of a certain company's stock can be modeled by the function $f(x) = x^2 - 12x + 75$. By graphing this quadratic function, we can make an educated guess as to how the stock will perform in the near future.
